Applicant(s): MARLON INESTROZA

Appn. Title: The Detachable Plastic Bottle and Bottle Holder for Consumers and Healthcare

Examiner/GAU: _____

Mailed: 08/01/03 Friday

At: San Francisco CA

Information Disclosure Statement

Commissioner for Patents

Washington, District of Columbia 20231

Sir:

Attached is a completed Form PTO/SB/08(A&B) and copies of the pertinent parts of the references cited thereon. Following are comments on any non-English-language references pursuant to Rule 98:

The drinking bottle patent references shown in the disclosure statement are molded in single unit cylindrical shape material connected with a narrow neck at top end of a bottle. Some bottles are standard cylindrical shapes; others are combined with curves and grooves for stability and style. The proposed detachable plastic bottle described in claim 1 is a three-piece unit that serves multi-functions giving consumers more practical ways of reusing the detachable plastic bottle.

There are bottle holders allowing practical ways of holding bottle for consumers (patent reference in disclosure statement); however, it is not convenient and secure manner as does in the proposed bottle holder. Claim 6, 7, 8 describe a bottle holder where patients can easily reach drinking bottle from bed rails. Consumers can carry drinking bottle hands free by using a portable bottle holder with strap, and a removable thermo pouch that is wrap around a belt.

The bottle mouth-drinking receptacle allows consumers to drink liquid from tip of a bottle. It requires one hand to hold bottle and another hand to open spout extracting fluids. The proposed mouth-drinking receptacle is hand free by pressing down with human lips on receptacle to received fluids and release lips to stop fluids

Very respectfully,

Applicant(s): Marlon Inestroza
